Access to Patents

Access to the different collections and different levels of patent data on the Delphion website is based on your registration or subscription package level.

Choosing the Right Delphion Research Packages

Use the following table to help choose the Delphion package that's right for your needs:

| If you are... | Then... |
|---|--|
| An IP or business professional who needs full access to collections and data as well as frequent use of downloading, productivity, and analytical tools | Subscribe to <i>Delphion Unlimited</i> |
| A frequent user who needs full access to all available collections and all available data | Subscribe to <i>Delphion Premier</i> |
| A casual user who doesn't require access to worldwide patent collections | Register for <i>Delphion Basic</i> |

Comparison of All Features by Package

For a feature-by-feature comparison of all three Delphion packages, see our [comparison matrix](#).
