- [How to access it](#)
- [How the Delphion Integrated View enhances your search](#)
- [Who has access to it](#)

See [Field Help: Definitions and Searching](#) in the Delphion Help Center for definitions of the fields that appear on the Delphion Integrated View.

What it is:

The Delphion Integrated View is a unique display format for presenting patent information. It presents all the information relevant to a particular patent in one document. It includes extensive links for access to things like other family members, forward and backward citations, non-patent prior art, business profile data, and information about licensing.

[\[back to top\]](#)

What to use it for:

Use the Delphion Integrated View to shorten search/research time by getting all needed information at one time in one document.

[\[back to top\]](#)

How to access it:

1. Click an individual patent from any Result Set on the Delphion website, or click any other link that references an individual patent.
2. Delphion displays the requested Integrated View (shown following).

How the Delphion Integrated View enhances your search:

The Delphion Integrated View enhances your patent searching activities in the following ways:

1. Data from multiple patent collections from the Delphion website is presented in one view eliminating the need to search collections individually and manually compare results
2. Delphion normalizes data in our patent collections to enable extensive linking between patent documents
3. Hyperlinks on the Integrated View allow quick access to many related items including:
 - o original patent document
 - o legal status
 - o family information
 - o prior art references
 - o Derwent record
4. For EP and WO patents, language toggle links allow you to choose from alternative languages (when available) for the following fields: Title, Abstract, and Claims (one click toggles all) (See **NOTE** following)
5. Other hyperlinks generate new Result Sets for:
 - o all patents owned by the assignee
 - o other patents in the same IPC or US classification
 - o US references
6. Quick access to the Image Viewer which provides thumbnails of original patent pages

- allowing quick identification of pertinent pages
7. PDFs of the patent can be immediately downloaded from the Integrated View; other patent delivery options are also accessible
 8. Email to a friend function lets you easily share patent data with colleagues
 9. Access to Citation Link display of this patent's citations
 10. Access to Corporate Tree hierarchy information on Assignees for the patent (see [How to use Corporate Tree from the Delphion Integrated View](#) to learn how to easily initiate an Assignee search from this data)

NOTE: English is the primary or default language of the Delphion Integrated View. So, for information for which there are multiple versions in different languages and English is one of those languages, the initial display will be in English with toggles to the other variation(s) of the information.

Who has access to it:

All individual patent records viewed on the Delphion website are displayed in the Delphion Integrated View format. Your ability to access specific features and links on the Delphion Integrated View is determined by the level of your subscription to the Delphion website. Basic registrants can see a limited version of the Integrated View, with un-activated hyperlinks. Premier and Unlimited subscribers have access to the full Integrated View, with all hyperlinks activated and all value-added data available.

See also: the [Access to Patents](#) section of these help pages for information on choosing the appropriate subscription level.

See also: the [subscription comparison matrix](#) for details of which features are included in each subscription level.
